

DATE: 16 MAY 2007

To whom it may concern:

Donaev Management Consulting conducted complex marketing research as well as focus-group discussions in order to determine capacity of cellular communications market and identify new market segments for diversification of services. As a result, consumers' database increased and new types of services were developed and offered to the Clients.

We would like especially note high professionalism of consultants and quality of services rendered and recommend Donaev Management Consulting to companies, going to enter or already operating on the territory of the Republic of Uzbekistan.
